

AT SCHOOL

After the publication of the first edition, it came to my attention that a typo went unnoticed. The article written by our student Ella, was an interview with her grandfather, however his name was mistakenly written wrong. The name in the article should have been Greg Simms. While it was an unfortunate mistake, it is a good reminder that even adults make mistakes. An apology isn't difficult and it is important to admit when mistakes are made. Thank you for all your support with the first edition. I hope you'll enjoy this and the editions to come.

Ask Skylar: "Why is Shatford so great?" The grade 1/2 split wanted to answer this for Skylar. Here are their answers: Piper, "The kids and the teachers!" Grace, "We are kind to everybody!" Sibel, "We go outside and get new classmates!" Issa, "Everybody makes new friends!" Violet, "We got a big space in our playground!" Connor, "Lunch! Math! and our siblings are at school!" Lincoln, "We have music AND gym!" Nora, "We do writing and have library!" Rory, "The basketball nets!" Brooklyn, "When someone falls, we help them!" Brynn, "There's free play!"

Keonte Beals

Eli

Keonte Beals is an amazing singer and author. We were very lucky to have him come to our Shatford Memorial Elementary School. Keonte Beals was born in North Preston, Nova Scotia, which is the biggest black community in Canada. Keonte's first book was a picture book called "I am Perfectly Me," which he wrote and illustrated with his younger brother Antonio Beals. When Keonte came to our school, he read the book to our school. Keonte has other great books. One of his other stories is "I Am So Worthy," which, according to the back of the book, "is an insightful children's book that teaches kids about the importance of self worth." Keonte's first album was released in 2017, it is called "Keonte." Some of the songs in his album are "Man Down" and "Love Overboard". Those are two of the magnificent five songs in the album "Keonte".

About Jaxx

Parker

Everyone loves Jaxx. I don't know a single person that HATES Jaxx, other. Jaxx is the popular kid in school. Jaxx is the BEST kid in school. He's number 1. Nobody is better than him. I say "Jaxx is super amazing!" Maddox says "He's good and funny." Leo says "Everything he does is cool." Connor says "I say he is really strong. He's stronger than me!" Mrs. Roos says "He's fun and hard working." Jaxx LOVES lasagna and LOVES sharks. Jaxx says "I need grapes!" Jaxx is so silly, that's why people like him. Like I said "Jaxx is super SUPER awesome!"

About Annie May

Robin

A person Annie May looks up to is her aunt Rebecca. Annie May's thinks her greatest extravagance is that she's herself. The quality Annie May most likes in a person is their smarts and skills, and the greatest love of her life is her one and only chicken named Willow Johnson Marigold Pumpkin Bumpkin. Annie May considers her greatest achievement playing piano and her most marked characteristic is her cheekiness. Annie May's favorite job, if she could do it, is an Equestrian, (a.k.a. rides horses.) and her favorite writers are Tui. T. Sutherland, author of Wings of Fire and J.K Rowling, author of Harry Potter. Annie May's hero of fiction is a dragon from Wings of Fire, and hero in real life is her cousin Mika. Annie May's most disliked thing to do is fold laundry. Her motto (and she does have one) is 'Risk it for the biscuit.'

After The Ice Storm

Dallas

Shatford memorial students were inside for two weeks because of the slippery ice sheet covering the ground. There was so much ice on the ground that you can't even walk. Other schools had the same problem with the ice outside. It started with a snowstorm, then an ice storm and a coat of ice covered our ground so we couldn't go outside. Millie thinks that it is annoying that we can't go outside and we need fresh air. Allie thinks it's just torture. Lily says, "I like playing in the gym but I would rather go outside." Maddox says it's not fun but we get to go out on the driveway to play.

Things you might not know about Mrs. Willies

Addy, Emel, Evelyn & Julia

Mrs. Willies' favourite color is blue and dogs are her favourite animal. Her favourite food is watermelon and her favourite hobby is cooking. Mrs. Willies' favourite holiday is Christmas but her favourite season is fall. She likes to dance. She loves to go to the beach because she loves to swim. She liked sports when she was younger but her favourite thing to do was swimming. Tulips are her favourite flowers because it is pretty. And her favourite fruit is oranges because they are refreshing.

Curling & Skating Trips

Lily R. & Connor B.

The grade 3, 4, 5, and 6 classes went skating and curling at the Eleanor Pew Memorial Arena (Chester skating rink) on the 12th and 19th of February. Yes folks, they let us again the week after. They were so kind to give their time so we can go two weeks in a row. We had so much fun skating and curling. First at the curling rink we had volunteers such as Tammy, Wendy, Barb, and Scott. There were also parents such as Marianne, Donnie, Jaime, Steve and Sarah, Peter, Meg, Nadea and Roman and Kate. They told us how to do everything. After she was done talking, we each had an instructor to teach us more about it, then we got started. We all had our own group and we all got an hour of curling together. We started with just learning how to slide, then we slid with rocks at the same time (I found it pretty hard but easy at the same time). Then, we all tried sweeping. I was very tired from sweeping really fast. Then we played a game with all the stuff we learned. We did all of it and it went like this. One person pushed the rock and two people would be sweeping and you had to push it really hard to make it all the way to the end. There was this target looking thing all the way at the end. The rock had to go right to the middle to win. The mid part of the target was 2 points. Everybody thought it was so much fun. Esmond C. says "I really liked curling because it was something new." Then it was over and it was SKATING time! Then we went to the skating area. I just want to say thank you to the people who helped put skates on and tie them too. We only had an hour to skate. When everybody got on the ice the skating began. My feet were hurting for while. When we were done skating, we packed all of our stuff, making sure we did not forget anything. We hopped back on the bus, drove back to our school and that was it. These trips were a new and fun opportunity for everybody.

About the 5/6 class

Dallas

The 5/6 class is a great class and I'm in it. There are 16 grade sixes in my class and the only grade sixes in the school. There are 9 grade fives in my class and there are more grade fives in another class because there is a split class that used to be 5/6 but now there is a 5/6 and a 4/5 split, too. When there was a 3/4 split, I was in that class, too. The grade sixes are very nice and so are the fives. I am in grade five, so I know that they are kind, funny, and nice. That is all you need to know about the 5/6 class.

What is French Class like

Maddox

French class is for grades 4-6. Madame Aucoin is really nice and will help you settle in quickly. In French, you will learn to say sentences in fun ways and sometimes in ways you would never expect. Some weeks you will have French on Monday and Friday, but other weeks you will have it on Tuesday and Thursday. Sometimes you get to bring your chromebook up to work on or, you bring it up to play Blooket! Blooket is really fun because you get to learn in a fun way. I really like French and I think everyone will like it. Madame Aucoin will really appreciate if you try your best. She used to high five or hug you when you entered but we don't have the pictures on the walls. Every week you get tickets and on Friday, she will draw a name out of a box and you will get a prize! There are candy and mini toys. You will learn how to say "How are you?" and the colours of the rainbow, and other things. That is what French is like.

Getting to know Ella C.

Brooklyn M.H.

Today I am doing an interview with a girl in the grade 6 class. She is a great gal, friend to everyone. Ella's idea of perfect happiness is going to the Eras Tour and the person she most admires is Taylor Swift. Ella's greatest fear is DEATH. The quality she most likes in a person is being nice and the word she most uses is 'probably.' The place Ella is happiest is at cheer competitions and the talent she would like to have is being strong. Ella's greatest achievement was getting first place 6 times in cheerleading. Her most treasured possession would be her medals from cheer. If Ella died and came back as something she would like to be a duck. The place she would like to live in is Newfoundland. Her favorite occupation would be lawyer. Her most marked characterization would be being funny. Ella's favorite writers are Indiana Hill Brown. Her hero of fiction is Deadpool but her hero in real life is her dad. The historical figure that Ella identifies with is Mona Lisa. Her motto is you 'You are not weird, you are unique.'

BOOKS & OTHER THINGS WE LIKE

Book review: Shadow of the World

Avali

“Shadow of the Wolf” is all about a boy and a girl, their names are Erin and Danny. Then they go and look in a mirror and they see two people that look exactly like them and their names are Innad and Nireh. They try to get them to help because their world is in danger. So, Erin and Danny try to get in to help them and he actually ends up getting in and it's crazy! While they are doing this, they are getting chased by a monster that is trying to kill them. It is a bit intense but fun to read. That's why I recommend “Shadow of the Wolf.” It should be your next read.

Wings of Fire

Catherine

From looking at the awards, sales numbers, and the number of series, really anybody could tell that ‘Wings of Fire’ is the best. Also, Tui T. Sutherland (the author) has gotten three awards in all (but they were not only ‘Wings of Fire’ books, so you should read her other books once you're done ‘Wings of Fire’). There are fifteen incredibly thrilling books in the series so you can always keep reading. There are also two other miniature series (legends series and winglets series). ‘Wings of Fire’ is the best book ever. Lots of people love ‘Wings of Fire’ because it is a book for all ages. There have been 14 million copies sold of the ‘Wings of Fire’ series (probably not exact number) so it is obviously a popular series. So, yes you should read ‘Wings of Fire’ right now because it is an amazing book series. C'mon go read!

Our Favourite Books!

Ocean

- Primary/Grade One's favourite book to read all together is “I Love You Blue Kangaroo”. “I Love You Blue Kangaroo” is a cute little book by Emma Chichester Clark. The book is about a young girl who loves her stuffies.
- Grade 1/2 split's favourite book to read together is a book called “Click, Clack, Moo Cows That Type” by Doreen Croin. This book is about a farmer who has cows that like to type!
- Grade 2/3 split's favourite book series is the “Humphrey” series by Betty G. Birney. The “Humphrey” series is about a little hamster named Humphrey and his adventures.
- Grade 4/5 split's favourite book is “Pippi Longstocking” by Astrid Lindgren. Pippi is a remarkable girl who has red funky braids and shoes that are much too big. This is a really funny book!
- Grade 5/6 split's favourite book is “Where the Red Fern Grows” by Wilson Rawls. This book is about a young boy named Billy who saves up for two dogs. I love this book. It is SO good.

About David Williams

Lily C.

David Williams is the best book writer. His most popular book is ‘Gangsta Granny’ and personally my favourite book is ‘Ratburger.’ If you have not read his books yet, you should. They are funny, long, and such fun and easy books to read. More than fifty million David William books have been sold mostly to people my age, so people around ten, eleven, or twelve. His characters are creative and it is always enjoyable to read. My favourite character is Burt from ‘Ratburger,’ he is funny and scary at the same time. The pictures are always so good. The artists are Quentin Blake, Tony Ross and Adam Stower. They are also famous. These are some of the reasons I think David Williams is the best book writer.

About Pippi Longstocking

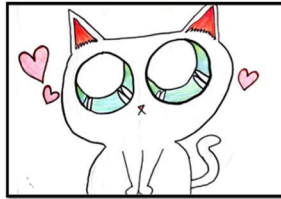

Avali

Pippi Longstocking is an enthusiastic girl. She is also really funny. Pippi decides to go to school because she thinks that she doesn't get summer vacation, but she has no school at all. This is just a really fun and great book. I definitely recommend it. This should be your next look to read.

Cats

Esmond

If you didn't know, in Canadian homes the number of cats is 8.5 million and the number of dogs is only 7.9 million! Also, there are so many more cat sayings and expressions like “kittens are angels with whiskers” and “the smallest feline is a masterpiece” And, how can you say no to this face?!?! Cats are also more supportive, funnier, and a lot cuter. Plus, cat owners can be healthier, smarter, and can lose allergies over time. And to finish, cats rule, dogs drool!

Ella N.

I think cats are the best, and that they can rule the world and they are so cute. Cats are old and kittens are young. Kittens are sweet, playful, cute and your best friend. They do bite, but only when they are annoyed, but they mostly don't! Cats are fun and they can be weird and fluffy. I mostly prefer kittens more than cats but cats are still good, and if you have a kitten, you're going to get a cat. With dogs, you will have to wake up every morning and night to take them to the washroom OUTSIDE! You have to take them out on walks two times a day. They will need a bath every week. Dogs can be rough and bite you. When they bite, you will have a big bite mark. Dogs bark and bark and would not stop. I don't like dogs; they drool everywhere and breathe so loud! Dogs are so wild and run and jump. That will happen when you're walking them and you will probably be going to lose your dog because you will let go of the leash. That is why cats are better than dogs.

About Lolly Nelson

Ella N.

When my mom was in Florida, she was a nanny to a boy and a girl named Blake and Ashley. One day they went to get a kitten for the family. It was a Balinese cat and she had big, bright blue eyes. Blake named her Pink Lollipop. They called her Lolly, for short. When my mom and dad went back to Florida a few years later, they said you can take Lolly home to Canada because she kept bringing lizards in the house. It took them two tries to get Lolly to Canada because they missed the first flight. When Lolly was on the airplane she was in a carrier right beside my mom. My mom gave her turkey from the turkey sandwiches that they passed out on the plane (Lolly loved turkey and chicken). Lolly loved her new home in Canada but missed the Florida heat and sun, and probably missed the lizards. When me and my sister were little, Lolly would play dress up with us. We put glasses, hats, dresses and tutus on her and she also liked riding in our doll stroller. She always purred when we played, so we know she loved it. When we were not playing, she would cuddle us. We have so many good memories with her, and we will always remember her and love her so much. (23-05-2006 - 10-2-2025)

What the 5/6 class is planning for March Break

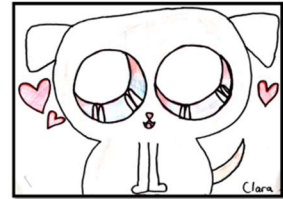

Lily C. & Adelaide

Adelaide is hoping to go somewhere on a road trip. Brooklyn is planning sibling time. Connor is going to watch movies. Dallas is hoping to go to New Brunswick. Eli is going to Quebec. Allie is going to PEI and going swimming. Sam is hoping to go to activate. River, Luca and Esmond are excited about sleepovers. Ella, Ryder, Matthew and Jaxx are going to hang out with friends. Leo is going to be playing football. Millie is going to soccer camp. Ebbie is going to play hockey. Annie May is going to go to a lifeguard course for 4 days. Lily is going to a hotel for her brother's birthday. Maddox will play with cats. Xander and Parker are going to play video games. Robin is going to renovate her room. Ocean says, “Happy St. Patrick's Day!”

Dogs

Clara

Personally, I think dogs rule and cats are cruel because, well, dogs are just better. The reasons I think dogs rule are because if you are a disabled person, they can help you scan your credit card. Cats can't do any of that. Also, dogs can sense when you are sad, so they are sad, too. They can also sense when you're getting a disease or you're diagnosed with something. Sure, cats can feel when you're sad or disappointed but you have to say after you've read this, dogs rule, cats drool. You have to train your cat to use a litter box, over and over. Even if you have to potty train a dog, training a cat to use a litter box is much harder. Another reason is because cats can be very violent. I bet now you're thinking, well dogs can be violent too, but that's because they experienced something bad when they were little. The same as cats. Those are all the reasons why dogs rule and cats are cruel.

Ruby P. & Juno

Dogs are so much better than cats. Cats don't do anything but be lazy and they don't play with you. Dogs do stuff and play with you. They are loyal. They love to snuggle and they care for you. They also fetch the newspaper. They can get you milk for breakfast too. They are always ready to go for a walk. They are so fun and loving, and cats are just big grumps. Some dogs play fight with you if you want them to. You can get dogs that point, hunt, flush, and retrieve. There are dogs that can help guide you so you know where you're going. Cats are not helpful or as kind as dogs. That is why dogs are BETTER THAN CATS!

Pomeranians

Lily R.

Pomeranians are a small dog breed, so small that it was considered as a toy breed because of its small size. They are playful and intelligent. Pomeranians can be many colours, like white, black, blue, red, cream, grey shaded, tan, orange, and brown. They come from Germany and Poland. Most Pomeranian's behaviour is feisty and bold. Pomeranians can also be smart, curious and energetic, which I think is really cool. Pomeranians' mass can be about 1.4 or 3.2 pounds if an adult. Pomeranians make a really great dog for your home. If you have small children then a Pomeranian is a really good dog for you. They can live from 1 year old to 12- 16 years old. Make sure you are prepared for a long commitment to your pet, especially if you get them as a puppy. You might be wondering how much a Pomeranian can cost! Well, Pomeranians usually range between \$600 to \$2500! Pomeranians are heavy shedders, so make sure you have supplies to clean dog hair all over your house. Now that is what you should know if you are getting a Pomeranian. For more information, you can check the wagwalking.com website.

Reading is Important

Brooklyn M.H.

Reading is important because it's stronger and healthier for the brain. It is learning and learning to make mistakes. When you read a book, you feel like you're in the book and it feels like a dream. It helps your mood and it's fun. You also need to think about what you're reading because your brain will get stronger and healthier. When you read sometimes you mess up, so if you keep reading you will get better. A reader can find a book they really like and read other books like it. A reader can also read the book again to improve their reading. Reading to another person can be a way to find your mistakes, and other readers will help you make corrections. Someone could read to the learner which will help them follow along and learn while listening. If a reader makes a mistake, that's okay- try again! Also, when you are angry you can relax and read a book because it calms you down. Reading is a great activity for your brain and it's fun, you can read anywhere- like on a bus, in a car or at a park.

DID YOU KNOW?

Pizza Tower is the BEST!

Parker

Pizza Tower is the top 3 best games in 2023. The GREAT reviews are over 95% so 3.35% don't like it. The music is stupidly good like "I need a Noise" and "World Wide Noise." In 2024 Pizza Tower got twice the players because of the noise update! Pizza Tower has like 1000 and more mods! Pizza Tower is based on the Wario Land games. Pizza Tower has 96.65% good reviews from 63k people. There are over 100 songs (and they're all good.) Pizza Tower can be played on PC and Nintendo. The first demo was in July 17, 2018.

You should Play Pizza Tower. It's great. The reason why Pizza Tower is called Pizza Tower is because when Mcpig (the creator) was thinking about the Leaning Tower of Pisa and he thought about pizza. Did you know that Pizza Tower was NOT about pizza? Did you know that Pizza Tower had 4 characters (The Pepperman, The Vigilante, The Noise and Peppino)?

Did you know that the Noise's full name is Theodore S. Noise. Peppino's full name is Peppino Spaghetti. The Noise is based on the Noid. Pizza Tower has lots of ideas like the firebutt (which you can get by going in the lava sauce). Did you know that Peppino is the fastest out of The Nosie, The Pepperman, and The Vigilante (when they were new)? It is a really good game. It's the best 26\$ game. Go play it now!

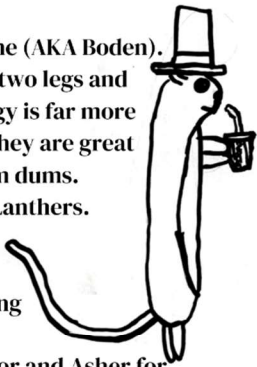

What are Lanthers and Lanth's?

Boden

Lanthers are a made-up race, by me (AKA Boden). Lanthers are pumas that stand on two legs and are seven feet tall. Their technology is far more advanced than ever imaginable. They are great friends with all Teos and Nuga dum dums. Lanth's are the smaller version of Lanthers.

Smallness also means less power and speed, but they are still very helpful. Lanth's are summoned using Lanther technology.

Lanther Approved. Credit to Connor and Asher for Teos and Nuga dum dum

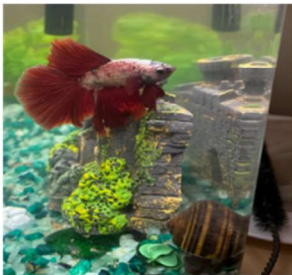

Betta Fish

Arthur

Bettas are originally from Thailand and are aggressive to other Bettas. Also their scientific name is Betta splendens. Bettas live from 2-4 years and grow up to 3 inches maximum. My Betta eats bugs and my snail eats algae off the walls of my tank. Bettas like to hide. My Betta's name is Maxsebo.

We buy his bugs at the pet store. Another name for bettas is Siamese Fighting Fish. My fish never attacks Bob the snail. You only need to fill the tank with tap water and pebbles. I

feed him once a day and clean his tank once every two weeks. Bettas are great fish.

How to fish

Arthur

First you cast your fishing rod. Then you let it sink for five seconds. Then you reel and pull, and do that until you reel your hook up. 'Reel' means to pull up. If you get a fish, you pull as hard as you can and reel it up! Fishing is just a matter of luck! Sometimes it will take minutes and sometimes it will take seconds. One time, when I was little I didn't know how to cast and I dropped the hook and caught a fish right away!!

Soccer

Millie

Soccer is the best because every age group can play. You also don't just have to play in the summer, you can play all year round. In the winter you can play on an indoor field, in the spring and fall in a gym, and in the summer play outside. It's not expensive! You also don't have to be on a proper team to play. You can get a couple friends and have a little game and you can play in your yard, driveway, or dirt road. You can even play in a wheelchair.

The Halifax Explosion

Louis

The Halifax Explosion happened in December 6, 1917. 1700 people died in the explosion and 9000 injured. The explosion lasted 20 min. My great, great grandfather Leo was in the explosion. He was born in eighteen-ninety something. He was a volunteer fire fighter with the Halifax City Brigade. In the picture, he is wearing his military uniform. He saved lots of people from the explosion. He was a great man. I feel bad for him since he died. I hope he had a great life. Someone named Vince Coleman was in the Halifax explosion; he saved 700 people. Sadly, he died, since he was close to the explosion. Lots of people died, some got blind. Builders have found pieces of the ships that exploded.

Megalodons are the Most Fascinating Sharks

Jaxx

Megalodons were amazing creatures. Megalodons were the biggest shark, at a max of 68 feet long. Megalodons were also so strong that they could easily break through a concrete wall. Megalodons have a strong bite of 40 000 psi, that's 5 to 6 times stronger than a T-rex. They have the strongest bite of any animal ever. Psi means pounds per square inch. Megalodons lived 20 million years ago. Megalodon's prey are baleen whales, toothed whales, an "ancestral form of modern sperm whales," dolphins, and other creatures. But the cool part is they can sense their prey's weakness. They would bite their prey's fins so they can't swim away. Megalodons have large teeth. Their teeth can get 7 inches long, that's the size of a full-grown man's hands and their mouth can fit a small car. Their mouths were 9 to 11 feet. Megalodons are the most fascinating animals ever. You could sleep in a megalodon's mouth but I don't recommend that.

Leatherback and Green Sea Turtles

Bonnie & Arthur

Green Sea Turtles eat seagrass and algae. Green Sea Turtles weigh up to 700 pounds. Green Sea Turtles can live up to 70 years or more. How to save sea turtles? You can turn off lights

if you are by turtle nests. You can also not throw plastic bags or cans. It isn't good for the environment or the sea.

Leatherback Sea turtles are the largest turtles in the world and they live off Nova Scotia. They are able to withstand the stinging tentacles of the man-o-war jellyfish.

The Shore Club

Gabe

If you live in Hubbards, you would know about the Shore Club. The Shore Club is a restaurant that mainly serves lobsters. The Shore Club was made in 1946 because lobster lovers went to Hubbards because of all the lobsters. They then made the Shore Club. On a Saturday night this year, in 2025, we will be celebrating the 79th birthday of the Shore Club. Did you also know that the Harnish and Brown families were a big part of the Shore Club? Luke and Jared Harnish own the Shore Club.

SS Atlantic

Luca

The SS Atlantic was a transatlantic ocean liner made by the White Star Line. She operated between Liverpool and New York City. During her 19th voyage she struck a rock and sank on Marrs Island off the coast of Prospect, Nova Scotia. Sadly killing at least 535 people.

On March 20th, 1873, she left from Liverpool with 952 people onboard. The ship met lots of waves and probably rain, and the wind was going towards the ship, which made it slower. The ships engine had to work harder than normal and that made her burn more coal. By the 11th day the captain, James Williams, became a bit scared that they'd run out of coal. They decided to stop in Halifax for more fuel because it was closer. They ended up overshooting the harbour and went too far west towards Prospect and they did not spot the Sambro lighthouse which warns of the rocks just underneath the ocean. The ships quartermaster, Robert Thomas, noticed something was wrong.

At 3.15 am April 1, 1873 the lookout shouted "Breakers ahead!" The crew immediately tried to stop the ship. It didn't work. And the Atlantic struck an underwater rock off Marr's Head, Nova Scotia. 10 lifeboats were lowered but they smashed into rocks. Distress rockets were shot into the air every minute but no help arrived. Many survived because the bravery of the first mate Cornelius Brady and the quartermasters John Speakman and Edward Owens. They swam ashore with a rope and tied it to a rock so passengers could pull themselves to shore. This saved many lives. At six am sailors contacted the people of Terence Bay and they sent out three boats to help. The SS Atlantic remained the deadliest shipwreck in the north Atlantic till 1898 when the la Bourgogne sank before the Titanic. If you would like to see artifacts from the Atlantic, visit the SS Atlantic Museum and heritage park in Terence Bay, Nova Scotia. For more information: ssatlantic.com or the Maritime museum website

All about the UK

Parker

The UK's most liked meal is fish & chips. The UK's most liked drink is tea (I love tea and fish & chips). The king of the UK is Sir King Charles the II! The pound is the money in the UK and the pound is 82% richer than the Canadian dollar (and it's at it's all-time high!!!) So, if you've got 100 pounds you got 182\$. London is the capital of the UK! The UK is not just 2 letters. The full name is "United Kingdom of Great Britain and Northern Ireland." Snickers candy got called marathon bars for 50 years! And last but not least... The queen was a trained mechanic!!!

All about the country Jordan

Rayan

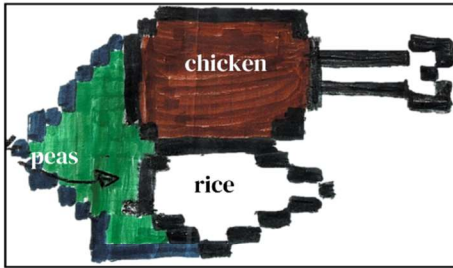

Jordan became independent in 1946. Jordan captured the West Bank in the 1948 Arab Israeli war and annexed it until Israeli forces took it during the Six Day War in 1967. Jordan gave up its claim to the territory in 1988 and in 1994 became the second Arab state to sign a peace treaty with Israel. Amer Deeb was a famous soccer player. He almost won the World Cup but he got injured in the second half of the game. Amer Deeb was their best player, so his team lost the World Cup Final. He got injured too many times, so he retired. He played soccer because his family was poor and he wanted to make money for his family and friends. So that's how he got famous. Famous foods in Jordan are Zarb falafel, sharma ka'ak, labneh Fattet hummus, galayet bandora, and mansaf.

Hubbards is the best place to live

River

There are lots of reasons why Hubbards is the best place to live. If you're wondering why, I have some reasons to back me up. Houses in Hubbards are close to stores, and houses in Hubbards are close to the woods, and houses in Hubbards are close to cities! In Hubbards, we have stores nearby. For example, at an average adult walking pace it's a 36 minute walk to a store from the farthest house in Hubbards. It's also a 13 minute bike ride and a three minute car drive to the forest. There are also nice woods nearby and scientists that study mental health say that being in the woods will make you calmer and can improve your mental health! In one place in Hubbards, it's a five minute walk and this house is the farthest house in Hubbards to the woods. A nine hour and nine minute walk, and a two hour eleven minute bike ride to the city which is nice if the residents of Hubbards need something in Halifax or Dartmouth. Like food, water, a job or even the airport which is nearby in Halifax and Dartmouth.

Places in Hubbards

Ella N & Lily R

Maya's Fish and Chips is a well-kept secret around the corner of Hubbards Cove, connected to the Hubbards campground. But it's not just for campers! Drive up and eat at Maya's Fish and Chips. Unfortunately, it is not open till the summer so get ready over the winter!

There is a market in Hubbards and it goes every Saturday in summer and fall. The Hubbards market (at The Barn) is a good place to spend your money and your Saturday morning with live music. Yet again, it is only open in the summer BUT there are two days that you can go in the winter which is called the CHRISTMAS market. Lolass Landing is a little small gift shop by the Shatford school. It is a girly shop because it has goods that girls would like but the things can sometimes be really weird and crazy but I'm sure you would love something crazy!

Hubbards Beach has beautiful water and crisp sand. All the kids in town love to jump and play in the relaxing water. It only gets warm in August and you will have to pay ten dollars for cars and five dollars for walking. You can get a beach pass too. Hubbards beach can get very crazy at times in the summer.

The Tuna Blue has yummy food and they have beautiful sunsets. Sometimes boats even come and park there. They have a little gift shop by the entrance and they have lots of things like hats, shirts, sweaters and stuffed lobsters.

The Savary Plate has high quality food, especially their pizza. They have dine in and take out and it's located in the strip mall at 100 Highway 3. Go there now to get the best food you've ever had!

The Hooked Museum collects, exhibits and preserves the heritage of hand-hooked rugs and artifacts. You get a tour and there are outdoor activities.

Brownies

Lily R.

Ingredients:

- A box of pudding mix (make according to instructions on the box)
- Tub of whipped cream
- Container of two bite brownies (can buy from the Independent)
- Skor bits

Grab a big bowl, layer a small bit of pudding on the bottom of the bowl. Put a little bit of whipped cream on top of the pudding. Layer a few of the two bite brownies on top of the whipped cream. Put Skor bits over those. Repeat all layers until you are at the top of the bowl. And then you eat it.

Lindell Wigginton, a Nova Scotian NBA player

Abbott

Lindell Wigginton is one of the only Nova Scotian NBA players of all time. He has played for the Milwaukee Bucks, the Wisconsin Herd and many more teams.

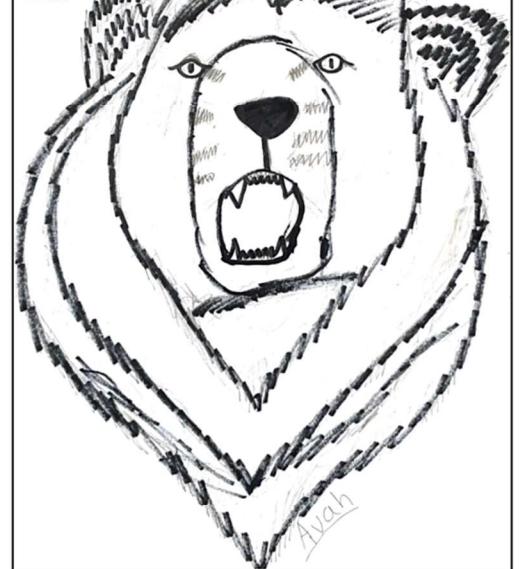

Lindell's hometown is Dartmouth Nova Scotia. His mom is from Halifax's Uniacke Square and his father is from North Preston.

His height is 6ft 1inch and his position is point guard. He has been in the NBA since 2019 and is still in the NBA today. Lindell Wigginton played in college from 2017-2019. Lindell Wigginton said he has learned a lot from the leadership of his team mates such as Giannis Antetokounmpo, Khris Middleton, and Jrue Holiday. He played his first game on his mother's birthday and gave his thanks to Nova Scotia for it's support along the way.

The story of Teo

Connor

One time a turtle was eating but he got an idea. He made his name Teo. He got friends. They made stuff about Teo. Teo loved to play with a rock. He named the rock, Wilburt, and he got two and his name was Orvill. He loved donuts. He got fat so he went for a run. Teo was sleepy. When Teo got home he was sleepy and happy. So, he went to bed. His friends gave him something that made him happy. Boden, his friend, made a home for Teo. Teo called his friends Adam and Connor and Boden. They played tag and hide and seek for fun. Soon the sky was black. So, they went home. Next day, they played a lot. Teo liked to play but he was still sleepy. His friend wanted to play but Teo was sleeping so Boden and Adam and Connor went home to sleep. Teo went to go to the shop. He gave his friends and idea to make money and to call it Teo bucks. He loved to make Teo stuff and books. People loved him but he wanted his friends to do it. He was sleepy all the time but he still eats donuts. His friends help him. The thing that made Teo happy is a Teo car. He loved to go to MCD. They eat and eat. Teo now was happy so they liked to play and be happy.

I said to my brother "When is your birthday?"

He said "March 1st!"

Left, Right! Left, Right! Left, Right!

What do you call a man with no body and no nose?
Nobody knows!

Knock knock!
Who's there?
Europe.
Europe who?
Hey, I'm not a poo!

Why don't scientists trust atoms?
Because they make up everything!

Why can't cats play card games in the jungle?
Because they are cheetahs! Hahahaha!

Knock knock!
Who's there?
Lettuce.
Lettuce who?
Lettuce in, it's very cold!
